Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 6, 8, 10, 12, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Chien et al (US 5,891,114).

Chien discloses a catheter (Figure 8) where the braid wire cross-sectional area at the distal section is less than the proximal wire cross-sectional area. The braid wires can be continuous throughout the proximal and distal section (col. 10, lines 34-44; Figure 7, col. 13, lines 55-57, and col. 14, lines 55-65).

Allowable Subject Matter

3. Claims 7 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed April 5, 2006 have been fully considered but they are not persuasive.

5. With respect to applicant's arguments that Chien fails to teach that the material or cross-sectional area or shape of a particular braid member can vary along its length, this is not found persuasive. Figure 8 teaches a change in braiding (change in cross-

sectional area and in shape of the braid) towards the distal section, and Figure 7 (see columns set forth above in the rejection) shows that the braiding can be continuous from proximal to distal section. The fact that there is not explicitly shown (in a drawing) the claimed subject matter does not mean that there is a lack of teaching in the reference when otherwise is explicitly written.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
